- C
- C++
- Python
- MongoDB
- Node.js
- Express.js
- REST API's
- HTML
- CSS
- Tailwind CSS
- Bootstrap 5

PROFILE

An innovative, task-driven student with a strong academic record and substantial experience in Design and Development. I am a quick learner and enjoy working in a team environment to tackle challenging technical problems. Passionate about learning new technology. Eager to grow and learn more to hone my skill set. I am excited about the opportunity to apply my technical skills and creativity to a challenging and rewarding role in the field of computer science. I am also a fitness enthusiast who works out and goes on treks in my free time.

EDUCATION

B.Tech : Computer Science Engineering,
Kalinga Institute of Industrial Technology

Bhubaneswar

2020-2024

CGPA: 8.69

CERTIFICATIONS

- Responsive Web Design by freeCodeCamp
- Problem-Solving (Basic) by HackerRank
- Problem-Solving (Intermediate) by HackerRank
- JavaScript Algorithms and Data Structures by freeCodeCamp
- AWS Academy Introduction to Cloud Semester 1

PROJECTS

Portfolio Website -

- Designed the layout of my website using Figma.
- Created my website with the use of React.js and Tailwind CSS.

Pixframe -

It is a simple modern, light, and fast photo gallery app for viewing your photos.

- I designed the layout of the website using Figma.
- Implemented the design using React.js and Tailwind CSS.
- Used Pixabay's API to show images.

TODO List -

It is a simple CRUD application to which you can add your daily routine tasks

- Designed and developed the app using HTML, CSS, and Embedded JavaScript(EJS) Templating.
- Used MongoDB as a back-end to connect the app to a database to persist data.
